

SYSTEM TRAINING

CERTIFIED VISUAL ENERGY 4 SYSTEM PARTNER OF **KBR** 2018

05.02.2018 - 10.02.2018

Training location: **KBR Kompensationsanlagenbau GmbH**
Am Kieferschlag 7
91126 Schwabach
Germany

Dear esteemed business partner of KBR

Saving energy by an energy data management in accordance with ISO 50001 is meanwhile an important factor to reduce the costs of production and is finally a contribution to increase the competitiveness.

For that purpose a powerful energy data management solution is helpful to improve the energy transparency in order to find out the own energy saving potentials.

More than 400 companies in Automotive, Pharma, Food, Metal, Chemical and Ceramics Industry worldwide are using our web based energy data management solution **visual energy 4** successfully.

Even Hospitals, Military and Public Institutions, Energy Suppliers and Universities are satisfied user of our energy management products.

visual energy 4 is a certified web-based energy data management system for reliable and continuous energy data capture, automatic monitoring and plausible evaluation.

Analysis of the energy consumption of almost all energy forms, different report and statistic functions, energy use and cost centre management and the new Dashboard designer are just a few advantages of our solution.

In case you are interested in the field of energy data management and its huge business possibilities, we are happy to inform you that we are planning the training "Certified visual energy 4 System Partner of KBR" for our international business partners again.

Due to the complexity of our system solution, it is necessary to study and practice the basics in function, commissioning and use of **visual energy 4**.

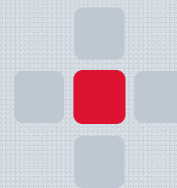

Also the functions of our hardware (multisys, multimes and multisio) and the required bus communication based on KBR eBus will be trained.

We have to point out that this training is not only an offer to our KBR component partners. Also our already existing system partners of KBR are very invited.

We will present and work with our brand new version visual energy 4.7 with new and very interesting functions and advantages for our customers.

The training takes place at KBR in Schwabach from 05.02.2018 - 10.02.2018. The schedule for the training is planned as follows:

TRAINING SCHEDULE

www.kbr.de

Mon - Tue 05.02. - 06.02.

*(Mon 09:00 - 12:00, 13:00 - 18:00)
(Tue 08:30 - 12:00, 13:00 - 18:00)*

Presentation of the solution visual energy

Device training, eBus and practices

multimes F96, F144 and D4, multisio, multisys
technical data, commissioning, configuration, practices
Basics of bus structures, physics, construction,
troubleshooting

Wed 07.02.

(08:30 - 12:00, 13:00 - 18:00)

Bus master AIO

Commissioning BM AIO, function bus master,
integration of eBus devices, practices

Thu 08.02.

(08:30 - 12:00)

Sharing experiences in system sales

with our KBR salesman Mr. Markus Antesberger

(13:00 - 18:00)

visual energy 4

Project establishing, creation visualisation and practices

Fri - Sat 09.02. - 10.02.

*(Fri 08:30 - 12:00, 13:00 - 18:00)
(Sat 08:30 - 12:00, 13:00 - 16:30)*

visual energy 4

Application visual energy 4 (load profiles, reporting,
cost centers, Excel AddIn, dashboard, workflows, ...),
practices and visual energy 4 starter

Concluding discussion

Specifics at project protections, presentation of the
certificates

(subject to alterations)

Instructors:

Dipl.-Ing. Karl-Heinrich Alt, Thomas Dümmler, Claus Czech

Training language:

English

Advised skills of the attendants:

Basic knowledge in IT, network technology and Excel

We recommend the participation of one sales representative and one engineer or technician of each company.

Training location:

KBR Kompensationsanlagenbau GmbH
Am Kieferschlag 7
91126 Schwabach
Germany

The training is limited for 2 attendants per company / country and maximum 12 training participants in total.

The **attendance fee** for that week is 1.400,- € per company and includes a starter package consisting of

- 1 x system center multisys R1 AIO50
- 1 x multimes F96
- 1 x multisio D6
- 1 x multisys ESET and
- 1 x visual energy starter software

By that starter package each business partner is able to build up a small energy data management system in his office for training, presentation, marketing and service purposes. The normal purchasing price of the package is much higher but KBR wants to help our business partners by sponsoring this first step into their energy data management business.

Please send us your binding registration for the training latest by 15.09.2017.

For the **accommodation** KBR will make the reservation from Sunday, 04.02. to Saturday, 10.02.2018 at Holiday Inn Express which is located very close to our facilities.

<http://www.express-schwabach.de/index.php?id=48&L=1>

The expected rates will be 74,- € per night and single room. Travelling and hotel costs have to be taken by the business partners.

**We are looking forward to welcome you at KBR to our training
"Certified visual energy 4 System Partner of KBR 2018"**
