

## BASIC

We regularly check your system telemetry data for functionality and data exchange from the devices to the BUS MASTER, and report any discrepancies.

## COMFORT

Maintenance service the way you imagine it. While you work undisturbed, our KBR service runs in the background to keep your system running smoothly and automatically eliminates any faults in devices, including Windows services and the database.

## PREMIUM

In our all-round carefree package, we are able to respond to a variety of challenges in real time via remote maintenance. Our KBR team of experts is also ready to help with concrete suggestions and helpful tips through the service hotline.

### General Terms and Conditions

The KBR Software Maintenance and Hotline Contract applies in addition to the General Terms and Conditions.
